

Preliminary Conference Programme - Friday 1st June

27th European Congress of Veterinary Dentistry | 31 May -2 June, 2018, Innsbruck, Austria

Main Program				
Stream	Small animal and exotic animal dentistry		Equine dentistry	German session
Room	Essentials Name room (max)	Intermediate/advanced Name room (max)	Name room (max)	Name room (max)
8.30-9.20	How to use the WSAVA Dental Guidelines to improve your practice B Niemiec	Dental Abnormalities in Puppies with a History of Maxillofacial Trauma A Castejon	Comparative studies on the histological characteristics of equine paranasal sinus mucosa considering topographic and age-related differences A Schwieder	Tipps und Tricks zur Oralen Untersuchung beim Kleintier M Eberspächer-Schweda
		Outcome of Mandibular Fractures in Puppies A Castejon	Odontomas - etiological consideration from histological findings C Staszuk	
9.20-9.25	Change room			
9.25-10.15	Feline Dentistry, Oral pathology and Radiology J Force	Stem Cells Therapy For Feline Chronic Gingivostomatitis: What Have We Learned So Far? B Arzi	Oral Endoscopy in Donkeys (Equus asinus) with Oro-dental Disorders AM Abu-Seida	Fifty shades of grey? Beurteilung von Dentalröntgenaufnahmen bei der Katze J Schreyer
			Assessment of the potential role of fissure fractures in the aetiology of equine cheek teeth apical infection K Yokota	
10.15-10.20	Change room			
10.20-11.10	Brachycephalic syndrome-Much more than what you think? G. Dupré			
11.10-11.15	28th European Veterinary Dental Forum presentation Utrecht			
11.10-11.40	COFFEE BREAK			
11.40-12.25	Dental Radiography – Positioning & Screening B Partridge	Mandibular Reconstruction: Clinical Aspects in Dogs F Verstraete	Five hundred equine dental referral cases - presentations and oroscopic findings C Pearce	Fifty shades of grey? Beurteilung von Dentalröntgenaufnahmen beim Hund J Schreyer
	Feline Dental Radiology B Niemiec		A comparison of computed tomography, radiography, gross and histological dental and alveolar findings of 30 abnormal cheek teeth from cadavers T Luiti	
			Microbiological and cytological examination of secretions from the paranasal sinuses in horses H Gergeleit	
12.25-12.30	Change room			
12.30-13.00	VOHC Digital Scoring Project Update and Discussion C Harvey	Mandibular Reconstruction: Biomechanical and Kinematic Aspects in Dogs and Cats B Arzi	Diagnosis and therapy of supernumerary teeth including heterotopic polyodontia in horses C Bartmann	Hilfe, mein Tier bekommt das Maul nicht zu! Überblick über Differentialdiagnosen A Reiter
13.00-14.30	LUNCH			

Preliminary Conference Programme - Friday 1st June

27th European Congress of Veterinary Dentistry | 31 May -2 June, 2018, Innsbruck, Austria

Main Program				
Stream	Small animal and exotic animal dentistry		Equine dentistry	German session
	Essentials	Intermediate/advanced		
Room	Name room (max)	Name room (max)	Name room (max)	Name room (max)
14.30-14.55	Puppies Need Dental Care Too! K Bannon	Radiographic outcome of root canal treatment of canine teeth in cats: 32 cases (1998–2016) P Ström	Measurement of eruption rates in equine premolars - a longitudinal study D Klugh / C Obach-Schröck	Hilfe, mein Tier bekommt das Maul nicht auf! Bericht über ein Fallbeispiel T Fichtel
14.55-15.00	Change room			
15.00-15.45	Senior Dental Care – special considerations for an important population H Lobprise	Cause, presentation and distribution of facial fractures in 45 cats following head trauma P Southerden	Comparison of the effect of buprenorphine or butorphanol on quality of detomidine sedation for cheek tooth extraction and postoperative pain in horses F Haunhorst	Zähne kürzen bei Heimtieren: Eine heiße Sache! Studie zum Einsatz rotierender Instrumente M Schumacher
			The use of growth factors in equine dentistry after extractions C Manso	
15.45-16.30	COFFEE BREAK			
16.30-17.15	Bad Bites; How do you treat them? L Legendre	Outcome of Jaw Fracture Repair in 39 Cats Presenting Between 2011 and 2017 P Southerden	Post extraction complications - a retrospective study R Kennedy	Happy End oder Tragödie? Was tun, wenn's mal nicht nach Lehrbuch läuft? Diskussion von Fallbeispielen: Teil 1 A Reiter
		Measurement of the assymetry of the maxilla in cats suffering head trauma using computed tomography multiplanar reconstruction P Southerden	Complication after anaesthesia of the maxillary nerve in a horse A Bienert-Zeit	
17.15-17.20	Change room			
17.20-18.00	Antimicrobial usage in Veterinary dentistry: Why or why not? A Caiafa	Anaesthesia and perioperative management of the dental patient with cardiac disease (dog and cat) E Eberspächer-Schweda	Oronasal fistulation due to cheek tooth malocclusion in 6 ponies N Townsend	Happy End oder Tragödie? Was tun, wenn's mal nicht nach Lehrbuch läuft? Diskussion von Fallbeispielen: Teil 2 A Reiter
			The Occurrence of Thrombophlebitis in Four Oral-Sinus Surgery Cases S Hole	
			Removal of unerupted cheek teeth H. Tremaine	
18.00-18.15				
18.15-19.00	Annual General Meeting EVDS			
20.15				
20.30-23.30				
23.30-03.00	Dancing			

Preliminary Conference Programme - Saturday 2nd June

27th European Congress of Veterinary Dentistry | 31 May -2 June, 2018, Innsbruck, Austria

Main Program				
Stream	Small animal and exotic animal dentistry		Equine dentistry	Interactive sessions
	Essentials	Intermediate/advanced		
Room	Name room (max)	Name room (max)	Name room (max)	Name room (max)
9.00-9.45	Local and Regional Anesthesia for Oral Procedures A Castejon	Advanced Periodontal Procedures: What is possible to perform and what is practical H Lobprise	Incisor tooth with open pulp canal, what is underneath? M Stoll	Management of Difficult Oral and Maxillofacial Cases in Dogs and Cats F Verstraete/B Arzi
	Flaps and Failures: What Is The Best Flap For Your Extraction Procedure? B Greenfield		Equine pulp restorations - are they successful? C Pearce	
9.45-9.50	Change room			
9.50-10.35	Dental Extractions B Partridge	Current Concepts in Periodontal Disease B Niemiec	Long term follow up of infundibular restorations (2006 - 2017) N Brooks	
			A molecular microbiological study identifying bacteria associated with equine peripheral and infundibular caries, and a pathological study of equine dental caries D Borkent	
10.35-10.40	Change room			
10.40-11.10	Oral cavity examination in rabbits V Jekl	Fractured teeth in need of periodontal surgery prior to prosthodontic therapy A Reiter	Cells of the equine periodontal ligament - molecular biological characteristics in view of their potential use in regenerative therapies A Pöschke / C Staszuk	
11.10-11.40	COFFEE BREAK			
11.40-12.25	Oral Tumors: What You Need to Know B Greenfield	Prosthodontics: Beyond the Crown Prep C Visser	Aetiology of periodontitis P Dixon	
	Oral surgery P Emily			
12.25-12.30	Change room			
12.30-13.00	The Evolution of Endodontic Obturation P Emily	The dangers lurking within your dental units B Partridge	The dilemma of equine cheek teeth diastema treatments – choosing the best treatments for different diastema presentations N du Toit	
13.00-14.30	LUNCH			

Preliminary Conference Programme - Saturday 2nd June

27th European Congress of Veterinary Dentistry | 31 May -2 June, 2018, Innsbruck, Austria

Main Program				
Stream	Small animal and exotic animal dentistry		Exotic dentistry	Interactive sessions
	Essentials	Intermediate/advanced		
Room	Name room (max)	Name room (max)	Name room (max)	Name room (max)
14.30-14.55	Pathophysiology and Local, Regional and Systemic Consequences of Periodontal Disease B Greenfield	Ectopic intranasal tooth revealed in an old dog. Case report and review J Gawor	Comparison of the analgesic effects and oxidative stress produced after administration of NASID or Rostral Nerve Block on post operative pain following pulpotomy in dogs A Tavakoli Comparative study of the regenerative property of platelet rich fibrin and Mineral Trioxide Aggregate (MTA) used as capping material in pulpotomy in incisor teeth of dogs A Tavakoli Radiological, histological and clinical side effects of incisor trimming in rabbits L Gentsch-Baumberger	Dentistry in exotic companion mammals V Jekl
14.55-15.00	Change room			
15.00-15.45	Inability or Unwillingness to Open the Mouth in Dogs and Cats A Castejon	A longitudinal assessment of periodontal disease in Yorkshire terrier C Wallis Our experience in canine prosthetics with dogs using CoCr one-piece pinlays I Makarov	Oral Examination and Treatment of 6 Spotted Hyenas L Legendre Cheylitis in pet guinea pigs V Jekl, K Huptman	
15.45-16.30	COFFEE BREAK			
16.30-17.15	Fractured Teeth - What's Next? K Bannon	Anesthetic effects of Echinacea angustifolia's seed extract in gum's surgery in Rat S Varsandian Dental Home Care in Swedish dogs K Enlund A case of dentin dysplasia and diffuse pulpal calcifications in a Czechoslovakian wolfdog E Bellei Dysphagia secondary to focal inflammatory myopathy and consequent dorsiflexion of the tongue in a dog P Strom	The Dental and Temporomandibular Joint Pathology of Three Bear Species F Verstraete Marine mammal oral trauma- seven cases J Force	Interpretation of Dental Radiograph L Verhaert
17.15-17.20	Change room			
17.20-18.00	Mandibular Fracture Repair: The Good, The Bad, and The Ugly B Hall	Nasal Dermoid sinus in a crossbreed Dog B Möhnle Feline inductive odontogenic (ameloblastom/fibroameloblastoma) tumour (FIOT) B Möhnle	Dental and Temporomandibular Joint Pathology of the Gray Wolf (Canis lupus) S Döring Oral and dental examination findings in a group of zoo squirrel monkeys (Saimiri boliviensis) Ž Žagar	
	Developmental dental disorders and their clinical significance L Verhaert	Osteonecrosis of the jaw K Slaba Root filling material and obturation techniques in endodontics, a brief review and report of three cases S Hashemi	Follow-up on simple (nonsurgical) extraction of fractured canine teeth in domestic ferrets (Mustela putorius furo) P Primožič Oral and dental examination findings in a group of zoo black-tufted marmosets (Callithrix penicillata) K Šmalc	
18.15-19.00	Farewell Drink
